*Let's begin by looking at the last decade. Much of the innovation that defined the American experience in our first two centuries stagnated during the past 10 years. But this innovation stagnation has created the greatest opportunity we've ever seen for people wishing to start a new business. "GRN" Provided, of course, that their product "Travel" or service either improves the life of their customer or provides something their customer is already using but at a lower price. Global Resorts Network has all of this, you just need to know how to share it with others properly.*

*Sharing information with you about 'Cutting Edge' information on using Leads, where to find them & how to become effective in our market using them.....*

~~~~~

In the past, I bought my share of resources & Tools that have proved to be well, less than I'd hoped for. And at least half the time it has been my fault I've just wanted the answer and for someone to come along and save me, and I've thrown money away thinking that such a thing was possible.

And finally, I realize that I stand on the shoulders of giants. There are some great resources out there in the world, proven & packed full of wisdom. And when people ask me what's my secret, it is to this collection of words that comes to mind, I most often refer people.

Most People & Business Owners mentality: When all is said and done, a lot more is said than done\*\*.

And of course, buying a source or a tool and then putting it aside half read or half used and not acting on its content won't get you far. (I know, I've tried it!)

So there's no doubt that one of the secrets of my success is FOLLOW THROUGH!!

Persistence, Resilience and actually putting what Successful people do into play. ...Scot

Below is the same program Scot Chatron has used for over 6 years to invite all of his attendees to his private workshops. Put this together with your Attain Response system, allowing your system to email your clients as a follow up.....WOW!!! Yes It is a WOW Factor!!!
